Mr. Christopher S. Downey  
1 Winter Street  
Winchester, MA 01890

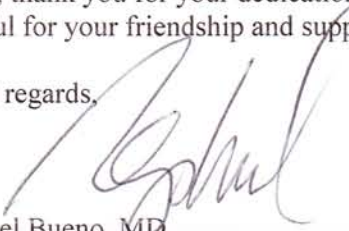

Dear Chris,

Thank you so much for your family's continued support to the International Mesothelioma Program (IMP) at Brigham and Women's Hospital. The Downey Golf Tournament continues to be a significant source of support and helps raise awareness for the work we do at the IMP.

With funding for mesothelioma hard to come by, loyal supporters, like your family, make it possible for our team to continue researching new treatments and offering comprehensive support services for the IMP's patients and their families. We continue to set new standards for mesothelioma care through innovative research, new clinical trials, and outstanding patient services.

Again, thank you for your dedication and partnering with us to fight against mesothelioma. I'm truly grateful for your friendship and support over the past 13 years.

Warm regards,

  
Raphael Bueno, MD  
Director, International Mesothelioma Program (IMP)  
Co-Director, The Lung Center
